

The Week In Society.

JUNE.

June! June! June! June!
How it stirs the heart like a tender tune,
How it warms and gladdens and gleams and thrills
Till the brown earth smiles and the laughter rills
From lips stern set with grief and pain—
But they crinkle now, for it's June again;
And the Joy o' Life comes back with June,
With a glorious sun and a lovers' moon—
June! June! June! June!

June! June! June! June!
Love o' my heart, 'tis the Master's boon
To a loving man and a loving maid,
This month of June, with its sun and shade;
For the lanes are topped with a leafy green,
Which only the birds can peer between.
They keep their counsel and won't reveal
The words we whisper, the kiss I steal.
Love o' my heart, is there aught like June,
Smiling on garden or barren dune?

June! June! June! June!
—A. B. Bailey, in Housekeeper.

Just June!

June, the month of roses, weddings and sweet girl graduates, is almost upon us, and there is promise of it being a month of social gaiety. Several weddings of much social prominence with their attendant pre-nuptial parties and visiting girls will contribute to this. Commencement week will be a round of pleasant events in honor of the graduates. The return of the college girls and boys will give an impetus to the younger set's pleasure. Already the first of the summer dances is announced, and if the Comet will just leave our pretty June alone, and not throw star-dust in her eyes and make her believe she is some pale, cold study of a month instead of the warm radiant being she is meant to be, we will have out-door parties galore and will begin to live our strenuous life.

Can This Man Read Your Life?

The rich, poor, exalted and humble seek his advice on Business, Marriage, Friends, Enemies, Changes, Speculations, Love Affairs, Journeys, and all events of Life.

MANY SAY HE REVEALS THEIR LIVES WITH AMAZING ACCURACY.

Free Test Readings Will Be Sent For a Short Time to All "Paducah Sun" Readers.

Has the veil of mystery that has so long shrouded the ancient sciences been raised at last? Can it be that a system has been perfected that reveals with reasonable accuracy the character and disposition of an individual and so outlines the life as to assist in avoiding errors and taking advantage of opportunities?

Roxroy, a man who has for twenty years been devoting his life to the study of the occult making a scientific study of the various methods of reading the lives of people seems to have reached a higher round in ladder of fame than his predecessors. Letters are pouring in from all parts of the world telling of the benefits derived from his advice. Many of his pairs look upon him as a man gifted with some strange mysterious power, but he modestly asserts that what he accomplishes is due alone to an understanding of natural laws.

He is a man of kindly feeling toward humanity and his manners and tone immediately impress one with his sincere belief in his work. A huge sack of grateful letters from people who have received readings from him adds to a her convincing proof as to his ability. Even astrologers and fatalists admit that his system surpasses anything yet introduced.

The Rev. G. H. Hasskell, Ph. D., who is a pastor of the St. Paul's Evangelical Lutheran Church in a letter to Prof. Roxroy, says: "You are certainly the greatest specialist and master of your profession. Every one consulting you will marvel at the correctness of your detailed personal readings and advice. The most sceptical will consult you again and again after corresponding with you once."

If you wish to take advantage of Roxroy's generous offer and obtain a free reading, send your date, month and year of birth, state whether (Mr. Miss or Miss) and also copy the following verse in your own handwriting:

I've heard of your power
To read people's lives,
And would ask what for me
You have to advise!

Be sure to give your correct name, birth date and address and write plainly. Send your letter to ROXROY, Dept. 978, No. 1774 Kensington High Street London W. 8, England. If you wish you may include 10 cents (U. S. stamps) to pay postage clerical work etc. Do not include coins or silver in letters.
Note—Under the new postal regulations you can send a sealed letter to England for only 10 pence postage.

Engagement Announced.

Announcement is made today of the engagement of Miss Anna Florence Smith, of Boston, Mass., to E. George Payne, Ph. D., of Kentucky. The wedding will take place sometime in August.

The wide popularity of Miss Smith and Dr. Payne makes the announcement one of more than usual interest in this city.

Miss Smith has spent the past year in West Kentucky, connected with the Presbyterian college at Princeton, and each week-end is in Paducah, where she has a large class in music and is soloist at the Kentucky Avenue Presbyterian church. She is a young woman of unusually brilliant attainments and versatility of gifts and her recitals in Paducah have been the most attractive entertainments of the past winter. Her charm of personality and graciousness of manner have won her a host of friends in this city.

Dr. Payne is a Kentuckian of whom the state has a right to be proud, young, virile, brainy, broad-minded, always standing for the highest and best in individual and city and destined to take his place among the foremost educators of the day. He is at present connected with the Eastern State Normal at Elkhorn, as the head of the department of Psychology and Pedagogy, but has accepted the chair of Psychology and Pedagogy in the Teachers' college of St. Louis, Mo., for the next year, a call to come higher. He is a man of unusual brain power and force of character, a scholar and a student. During his four years' residence in this city as principal of the Paducah High school he endeared himself to a wide circle of friends by his manhood, sympathy and delightful personality. He was especially popular with his pupils. Dr. Payne received the degree of Bachelor of Arts from the National Normal university at Lebanon, Ohio, and has only recently returned from two years of study in the University of Berlin and Bonn, where he won his Ph. D. degree with signal honors and distinction. Although still quite young he was appointed a member of the State Normal commission to locate the Normal schools and was made a commissioner from Kentucky to Germany to study the German school system, by the governor. He has published already several books along educational lines that have attracted especial notice.

The marriage of Miss Kathleen Gwathmey Whitefield to Mr. Jefferson Davis Rowlett of Murray, Ky., will be solemnized on Thursday evening at 9 o'clock at the home of the bride's parents, Mr. and Mrs. William Gaston Whitefield, 631 Kentucky avenue. The Rev. W. H. Pinkerton, of Ghent, Ky., a former pastor and family friend, will perform the ceremony.

The family prominence and personal popularity of both Miss Whitefield and Mr. Rowlett will make the wedding one of much social interest. It will be a beautiful home ceremonial, characterized by both simplicity and charm.

A number of out-of-town guests will be present for the wedding and will arrive on Monday, Tuesday and Wednesday. They will be: Mrs. A. S. Dabney, of Chicago; Mrs. William A. Robinson, of Louisville; Mrs. M. H. Nelson, of Hopkinsville; Miss Alice Carroll, of Nashville, Tenn.; Miss Martha Carroll, of Nashville, Tenn.; Rev. W. H. Pinkerton, of Ghent, and Miss Gertrude Pinkerton, of Ghent.

Newbro's Herpicide Delights the Ladies

Because they know from experience that the intelligent use of Herpicide means much to their personal appearance. It saves and beautifies the hair and in the vast majority of cases, adds greatly to its abundance.

The presence of the dandruff germ in the scalp destroys the gloss and beauty of the hair, even before the resulting disease becomes firmly established.

Each day that the use of Newbro's Herpicide is put off, makes the repair that much more difficult.

Save your hair while you have hair to save.

The intelligent use of Herpicide proves its actual worth.

"I am delighted with Herpicide. I have never used a remedy that gives such marvelous results. The effect on my son's head is magical and he had a very persistent case of dandruff."

(Signed) MRS. J. L. MOORE,

New Haven, Conn.

"I can say from experience that Newbro's Herpicide is the most wonderful hair grower and dandruff eradicant that was ever made. I have used it for some time and can truthfully say that I am greatly pleased with it. I cheerfully recommend it as a splendid preparation."

(Signed) MRS. DR. REST,

Cottage Grove, Oregon.

"It gives me great pleasure to add my commendation of Newbro's Herpicide. A member of our family has used your remedy with very satisfactory results."

(Signed) MISS A. E. CARUTHERS,

Tampa, Florida.

Mrs. Desha Breckenridge Says County Unit Men Were Their Friends.

Frankfort, Ky., May 28.—Supporters of the whisky interest in the last legislature defeated the bill providing suffrage for women, was the declaration of Mrs. Desha Breckenridge, of Lexington, at the Federation of Women's clubs convention in session in this city.

"The declaration came in a speech made by Mrs. Breckenridge in making the report of the legislative committee of the federation. She said that 'the whisky interests were against us and the county unit men our friends. The majority of those who voted for us in both houses were county unit men. The leaders of the opposition belonged to the liquor wing.'"

Any system that needs a tonic needs also a blood purifier, for it is the weakened, impure condition of the circulation that is responsible for the run-down state of health. The supreme office and duty of the blood is to furnish nourishment to every portion of the body. The circulatory system, magnificent and wonderful in its construction, supplies the means for the distribution of systemic nutriment to every muscle, nerve, bone, gland, sinew and tissue of the body; and just as long as the blood remains pure and rich each of these members are healthy, strong and normal.

We have only to recognize the importance of pure blood in preserving health, to realize the danger of a weakened circulation. The use of a proper tonic when the system is depleted and run-down will often prevent the development of some serious sickness, because weak systems cannot resist disease, while healthy systems are able to ward it off.

Deficient blood nutriment is usually manifested in a general bodily weakness, a tired, worn-out feeling, fickle appetite, poor digestion, etc. Sleep does not sufficiently refresh the body, and the languid feeling frequently makes the ordinary duties of life burdensome.

It is not a nerve stimulant, but a medicine that steadily builds up every portion of the system by cleansing and enriching the blood, and in this way supplying an increased amount of nourishment and strength to every portion of the body. S. S. S. rids the system of that tired, worn-out feeling, quiets the over-strained nerves, makes sleep refreshing, corrects any stomach disturbance, promotes good digestion and adds vigor and vim to the entire system.

Color Scheme Beauty.
Loveliness in color schemes marks the best of the new fashions. Perfect poems are worked out in the fashionable hues. Violet hues serve for one lovely creation, the iris having been the inspiration.
The fuchsia, with its daring blend of crimson and purple, has also been rifled for color schemes, gauges over bringing out the tones wanted.
Shot chiffons help out color schemes. A royal blue chiffon powdered with gold dots and made over a royal blue foulard spattered with darker blue spots is artistic in effect.

Washington, May 28.—Cannon presented the Detroit ball team with a mascot in the form of a nickel plated horseshoe. Detroit won today.
